

Images of Puzzle Box:

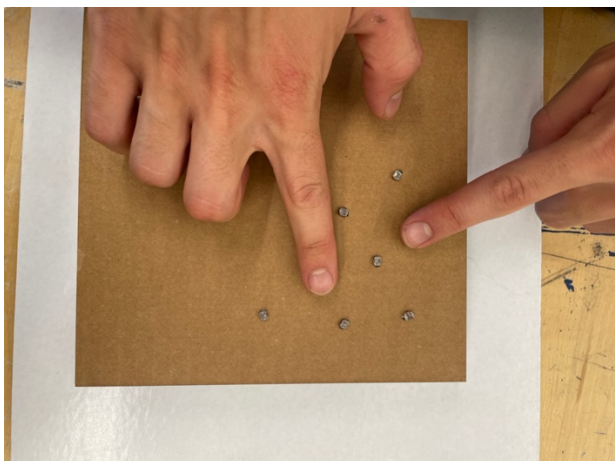

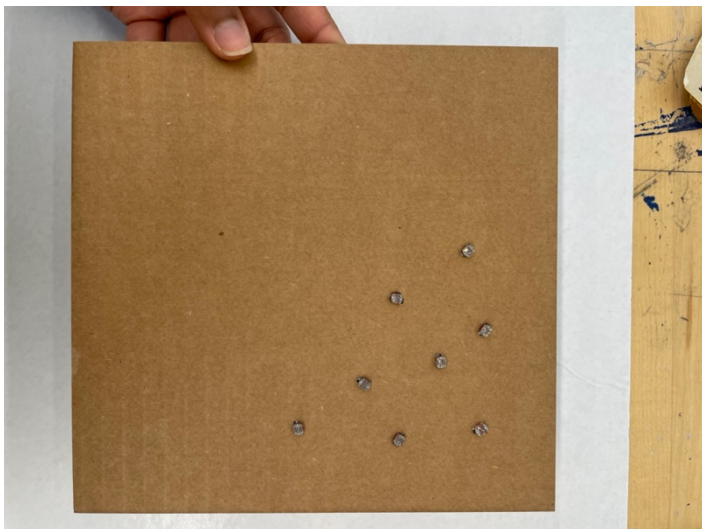

Shown:

- Left side: PClock with 8 photocells
- Right side: LightLock with 4x SPDT switches and 3 RGB LEDs
- Center: CombLock with rotary encoder and 4 Digit x 7 Segment Display.
 - Also has I2C OLED Display
- Top: Top of the box. The white semi-circle will rotate on the servo arm (servo shown above the piece) to reveal an opening to the box
- Bottom: Box base
